《数字信号处理》 Digital Signal Processing

Mini Project

Lecturer: Dr. Yuefei CAI(蔡月飞)

Email: caiym@sustech.edu.cn

Office: Room 316, North Tower, CoE

Open-office Hour: Fri. 16:30-18:30

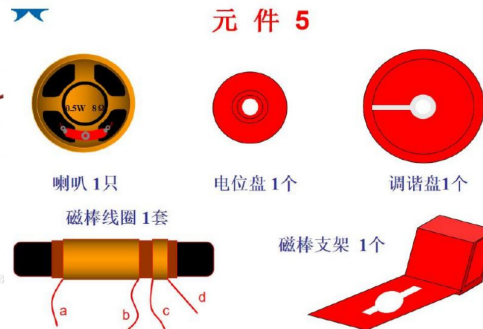

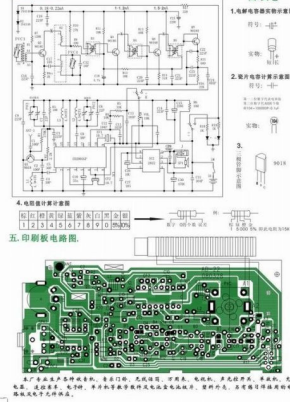

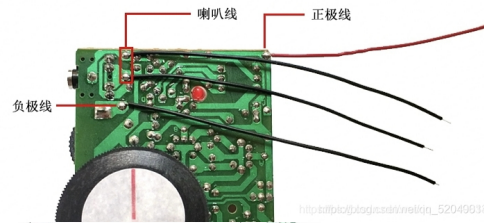

Tel: 13035227649

Learn from a Project

My UG Experience:

焊接4根导线。如下图：

- It is amazing that EM waves are everywhere in the space
 - Moreover, using a simple metal rod can collect it
 - EM waves contain information!
- (Although we have known these from high-school textbooks)

Project Requirement

- **Deadline:** Nov.22, 2024. Apply for extension only with justified reasons.
- **Score:** 6% (Attendance 10%, Labs 30%= 6% Mini Project +24% Labs, HWs 20%, Final 40%)
- **Lab Report**
 - Report must be in PDF or Word format including the following key parts:
 - (1) Briefly state **your answer to** the Exercise 1-5
 - (2) Detailed process to show how your **thought** about this problem, your **analysis** and your **conclusion**
 - (3) Summary what you **have learnt** from this experiment.
 - (4) Attachment 1. **Program Code** written by yourselves (1st trials, 2nd trails, ...).
Attachment 2. **Experimental Notes**.
 - Notes: 1. Report file should be named as “ Student ID+ Name+ Mini-Project”
2. You should insert your own thought (“fingerprint”) into your report to prevent possible plagiarism
For example, choosing one of your favorite musics, trying to detail your thought, etc.
- **Plagiarism is not allowed**

Enjoy the journey as
much as the destination.
